

Simplicity elevated, décor that inspires

Due to the past success of our Promotional product line NOW introducing our latest interior décor collections, curated by a professional interior designer. Each detail has been carefully selected to bring the best handpicked designs to elevate your home and bring a touch of sophistication. With a focus on quality, style, and functionality, our collection offers everything you need to transform your space into a beautiful and inviting living area. Say goodbye to generic décor and hello to unique, designer-inspired pieces that will elevate your home to the next level. Trust us to provide a seamless decorating experience, with a designer touch, that is both stylish and functional.

STEP 1

- Go to the design center to pick a décor package you would like for your next Maynardville home.
- We suggest if they are having an issue picking a package, ask what color cabinets they would like in their home.
- (Please note: we have 3 main cabinet colors (Alabaster White, Oakley and Club Grey) that will narrow the selection of which decors to use.)

STEP 2

- On our website, each of the floor plans of the home will be located with the house you have decided to go with. Download the décor you chose to see all the locations of the colored wallboards as well as the main and accent cabinet/countertop colors.
- (Reminder: if wallboards are not wanted, our Main Panel, First Light, can be used throughout the home.)

STEP 3

- Once the décor package is picked and it's verified all wallboards and colors are what the customer wants, we ask that the customer signs off on the print (like how we receive a signed confirmation) for our guarantee they have seen and confirmed they want the package selected.
- This will be received by the CSM along with the signed confirmation from the Home Center when the home is ready to be ordered and built.
